Univanich Palm Oil PCL is an award winning company listed on the Stock Exchange of Thailand and with headquarters in Krabi Province. The company is a supplier of crude palm oils to domestic food industries and for export. The Univanich Oil Palm Research Centre is internationally recognised for advanced oil palm breeding, tissue culture, and for the production of high yielding hybrid seeds for Thailand’s farmers and for export to growers in more than fifteen countries.

In Thailand, Univanich employs over 1,200 people who enjoy very competitive employment conditions in an attractive environment close to the tourist centres of Krabi and Phuket. Due to the Company’s expansion in both Thailand and the Philippines, Univanich invites applications from fluent Thai and/or Philippine language speakers for the following positions;

This is a management position responsible for operations in one of the company’s five palm oil crushing mills in Thailand and a sixth in the Philippines. Reporting to the company’s Chief Engineer the Factory Engineer will also be responsible for staff training, steam boiler supervision, electricity generation and environmental controls. The Factory Engineer will lead a workforce of around 100 technical staff and artisans so a successful candidate will have strong interpersonal skills and proven leadership abilities.

**Qualifications:**
- A degree in Mechanical or Electrical Engineering
- Minimum 10 years factory management experience
- Proficient in written and spoken English
- Proven leadership and project management skills

A Sarman Mechanical Engineer License to supervise 20 – 40 tonne steam boilers and experience in palm oil production would be an advantage, but not essential as a suitable candidate will receive additional training within the company and overseas.

Managers are provided with a high standard of company housing and a transport allowance as part of their attractive employment package.

An application in English enclosing a recent photo and full details of qualifications and experience should be made by **31 July, 2018** to:

**The Managing Director**
Univanich Palm Oil Public Co., Ltd.
P. O. Box 8 – 9, Aoluk District, Krabi 81110, or by email to : info@univanich.com

Univanich Palm Oil PCL is an award winning company listed on the Stock Exchange of Thailand. The company employs over 1,200 people who enjoy competitive employment conditions in an attractive environment close to the tourist centres of Krabi and Phuket.

The Univanich Oil Palm Research Centre (OPRC) employs 140 people and is internationally recognized for an advanced oil palm breeding programme which supplies high-yielding hybrid seeds to Thailand’s farmers and for export to growers in more than 15 countries.

Since 2006 the Univanich OPRC has operated a tissue culture laboratory which has successfully produced Thailand’s first oil palm clones and a new generation of clonal seeds. To build on this success Univanich is developing an Oil Palm Genomics Laboratory to progress to the next level of DNA fingerprinting and development of oil palm genetic markers. To support this pioneering programme the company invites applications for the following position:

**MOLECULAR BIOLOGIST**

**Oil Palm Genomics Laboratory (Krabi)**

Under the guidance of overseas technical consultants and reporting to the Univanich Head of Oil Palm Research, the Molecular Biologist will have responsibility for establishing the Oil Palm Genomics Laboratory.

**Qualifications:**
- A graduate in Plant Science or Plant Biotechnology with up to five years experience of molecular genetic techniques
  - DNA extraction and purification
  - PCR amplification of DNA / primer mixtures
  - Conducting gel electrophoresis and interpretation of results
  - Interpretation of results from genetic analyser
- The Molecular Biologist will work in close co-operation with management and staff of the company’s Tissue Culture Laboratory
- Fluent in Thai language and proficient in written and spoken English

The successful applicant will be based at the Univanich Oil Palm Research Centre in Plaipraya District of Krabi Province. A competitive salary, free housing and other benefits will be provided.

An application in English, enclosing a recent photo and full details of qualifications and experience should be made by **31st July 2018** to:

**MANAGEMENT TRAINEES (ENGINEERING)**

These are assistant management positions in our palm oil crushing mills, reporting to the Factory Engineer.

**Qualifications:**
- A degree in Mechanical or Electrical Engineering
- Recent graduates or with up to 5 years working experience
- Proficient in written and spoken English
- Proven leadership and project management skills

Management Trainees will experience a range of engineering and management responsibilities over a three-year training period, monitored by the Chief Engineer. Within recent years five Management Trainee engineers have been promoted to Factory Engineer or to more senior General Management positions within our expanding business.

An important skill is team leadership as all management trainees should be capable of becoming the next generation of senior management in the Univanich business.

Suitable candidates with good English language skills will receive a wide variety of management experience within the company and overseas.

Management Trainees are provided with a high standard of company housing and a transport allowance as part of their attractive employment package.
